NEW LAW HELP TO GROWING CITIES

EXCESS CONDEMNATION ACT IF PASSED, WOULD BENEFIT EVERY COMMUNITY.

OF INTEREST TO EVERY VOTER

Several States Already Have Passed Amendments Similar to One Proposed in Michigan.

Every voter in the State of Michigan should become familiar with the facts concerning Excess Condemnation and know the real advantages which would accrue to any community as a whole if the Excess Condemnation Act is favorably voted upon by the people of Michigan and enacted into a State law.

"Excess Condemnation" means taking through the exercise of "Eminent domain" more land than the actual requirement of the intended improvement. The proposed Constitutional Amendment permits the application of this principle by cities in Michigan.

Rapid growth and new traffic problems of large cities have in recent years developed an absolute need for comprehensive city planning which involves knowledge of existing conditions and study of the future growth covering the proper relation of improved thoroughfares, boulevards, parks and recreation grounds, etc. In securing such improvements through condemnation, the courts do not permit the taking of more land than is shown to be actually needed. This often results in leaving remnants of abutting parcels of land which are inadequate for proper building utilization, for which owners have been awarded damages to full value. With the right of "Excess Condemnation" any City could acquire sufficient abutting land to provide properly shaped building lots. These would be resold or leased, with suitable restrictions, if required, to protect the improvement, and the City would derive the benefit of enhanced values resulting from the development.

Protection of thoroughfares, parks and public building sites from unsightly structures or neglected vacant remnants of land is one object of "Excess Condemnation." Another is recompense to the City for cost of improvements through sale of excess land.

It can be readily understood that many public improvements could thus be secured at little or no cost, and some improvements might be realized which without "Excess Condemnation" would be impracticable because of excessive cost.

Past mistakes of street widths and locations made through bad planning can in some instances be corrected with the aid of excess condemnation. It is not expected that Excess Condemnation will be used in every case involving the acquisition of land for City improvements, but it is desired that cities be permitted to use it where the best interests of the municipality make such procedure desirable.

New York, Ohio, Massachusetts and Wisconsin have already passed constitutional amendments permitting "Excess Condemnation." The Michigan Legislature, at its last session, adopted a resolution to submit to a popular vote of the people a proposed Constitutional Amendment providing for future legislation to this end. This amendment will be voted on by the voters of Michigan at the November election in 1920.

Senate Enrolled Joint Resolution No. 1 of the extra session of the 1919 Legislature provides that the proposed amendment shall appear on the ballot in the following form:

"Vote on proposed amendment to the Constitution relative to empowering the Legislature to authorize municipalities, subject to reasonable limitations, to condemn and to take the fee to more land and property than is needed in the acquiring, opening and widening of parks, boulevards, other public places and for any public use, and to make provision for the issuance of bonds to supply the funds to pay therefor.

"Amendment to article thirteen of the Constitution, empowering the Legislature to authorize municipalities to condemn more land than is necessary for certain public purposes and to issue bonds therefor; it being proposed that said article be amended by adding thereto a new section, to be known as 'Section five' to read as follows:

"Section 5. Subject to this Constitution the Legislature may authorize municipalities, subject to reasonable limitations, to condemn and to take the fee to more land and property than is needed in the acquiring, opening and widening of parks, boulevards, public places, streets, alleys, or for any public use, both within and beyond their boundaries, and after so much of the land and property has been appropriated for any such needed public purpose, the remainder may be sold or leased with or without such restrictions as may be appropriate to the improvement made. Bonds may be issued to supply the funds to pay in whole or in part for the excess property so appropriated, but such bonds shall be a lien only on the property so acquired and they shall not be included in any limitation of the bonded indebtedness of such municipality.

Yes () No ()"

BIG GAMBLERS NIPPED IN RAID

STATE POLICE CLOSE MACKINAC ISLAND MONTE CARLO AND ARREST OPERATORS.

FASHIONABLE PATRONS FLEE

While the State Police have been busy in closing up and prosecuting professional gamblers in all parts of the state, the most notable raid made this year was that on the Casino operated in connection with the Grand Hotel at Mackinac Island. This was run to catch the play of the wealthier visitors to this beautiful summer resort and a fashionably-garbed crowd was in the Casino when it was raided by a force headed by Capt. A. A. Downing recently.

Last year the State Police raided the Grand Hotel and took away a number of roulette wheels and other gambling devices but the temptation to get the easy money of the island visitors was so great that the gamblers opened up again this year. Handsome furnishings and well-trained servants were provided to attract players. In addition, means were employed to let all visitors who looked as if they might gamble in on the fact that they could have the opportunity to try their luck at these games of chance.

When Major Marsh of the State Police learned that gambling had been resumed again at Mackinac Island, he sent Corporal Harold Mulbar to investigate and report. The latter brought back information which led to the raid.

The party which closed the gambling place consisted of Captain A. A. Downing, Corporal Black and Troopers Liljegren and Kutter, in addition to Corporal Mulbar. They entered the ballroom of the hotel in civilian clothing and followed the dancers from the ballroom to the Casino. There was a hush when Captain Downing announced that he had come to close the place, seize the apparatus and arrest the gamblers. Some women screamed and others wept. However, the troopers did not attempt to arrest the patrons but did take into custody Logan Hallard, proprietor, C. J. Holden, manager and Harry Howard and Albert Jackson, employees.

Hallard was also charged with serving liquor. He will be tried in Federal court at Sault Ste. Marie for this offense. The gamblers were fined \$100 apiece by a justice of the peace.

The gambling apparatus seized is valued at thousands of dollars.

DOG LAW ENFORCEMENT FAVORS SHEEP RAISERS

STATE POLICE GIVE VALUABLE AID TO IMPORTANT AGRICULTURAL INDUSTRY.

Enforcement of the state dog law by the State Police, which is being rigorously carried out, is expected to have an important effect with regard to the sheep-breeding industry of the state. One objection to raising sheep in this state has been the fact that many valuable sheep were killed by stray dogs. By getting rid of these savage dogs, it is expected that encouragement will be given to the sheep-raisers which will result in increase of the number of wool-bearing animals in the state.

Much of the cut-over lands of Michigan are more suitable for sheep-raising than for any other purpose and all through the state climatic conditions are favorable for sheep. Inasmuch as the sheep not only produce meat and wool but are also a factor in improving the fertility of the soil, the fostering of this branch of agriculture is an excellent thing for Michigan.

Owing to the fact that they have no local affiliations to hamper their work, the State Police are particularly effective in enforcing the dog law.

MANY AUTO THIEVES ARE PUT IN JAIL

No part of the work of the State Police has shown more effective improvement than the highway patrol and this has been especially the case with regard to catching automobile thieves and recovering stolen cars.

Fred B. Hicks, Ponton, Mich., suffered the loss of his car Sept. 8 and was surprised to learn the next day that the State Police had recovered it the same night it was stolen.

Anthony H. Holleran was arrested in Jackson, Sept. 15, and the car was returned to Mrs. A. Curtenius of Kalamazoo, the troopers having learned the identity of the owner from the factory which made the car.

Citizens should co-operate in every way in the work of making the highways safe and in assisting in catching auto thieves. It may happen in some cases that State Police officers find it necessary to arrest and question several drivers in order to catch one guilty person, but good citizens realize that this is unavoidable if the law is to be enforced.

PRICES LOW!

STYLE FINE!

QUALITY A1!

There you have in a nut shell the features of our

Viking Overcoats for Men and Young Men.

The prices are absolutely fair and within your means. The styles are smart and snappy. The quality is the kind that will enable you to wear your coat a long time.
